COMPASS by Nahrang Studio

COMPASS by Nahrang Studio

COMPASS

by Nahtrang Studio

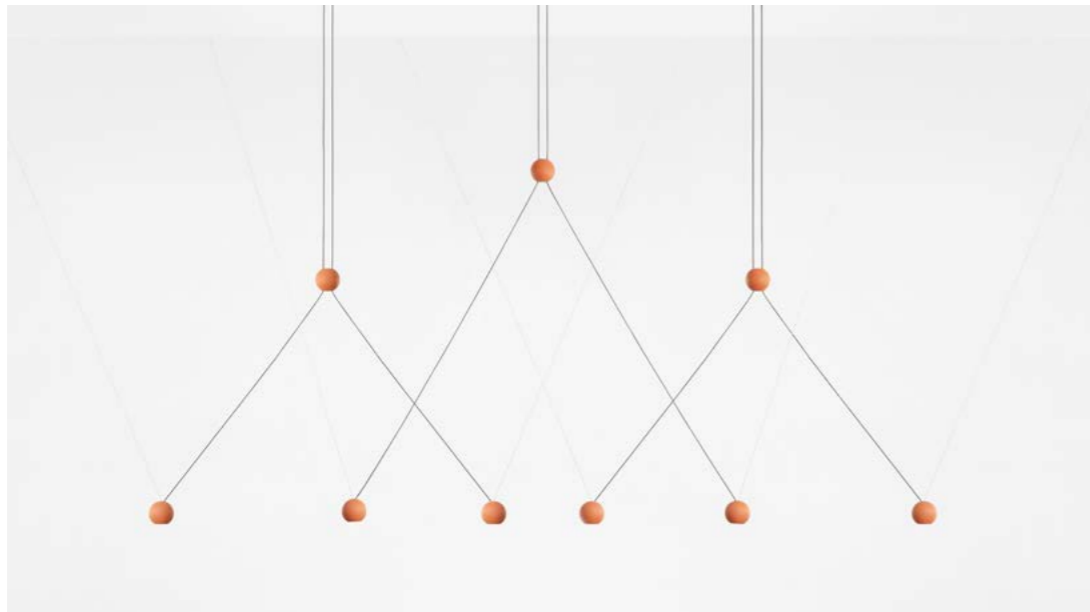

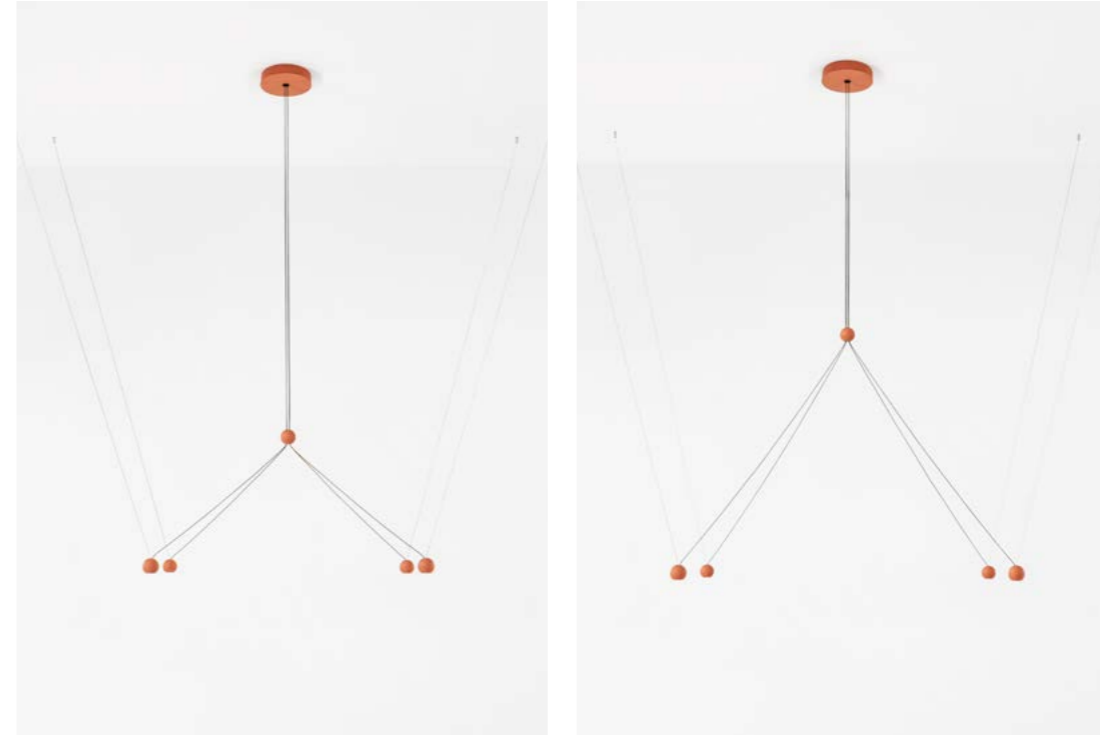

COMPASS light distills into pure, simple structures. The breaking starting point is an elegant tension of the movement of the compass, of how from a point of union we can vary the angles, the form and the light. There is an interplay of weights and gravitational movement of the elements, and the same luminaire can change its geometry and functionality.

MOOD

by Nahtrang Studio

The essence of MOOD is to create environments, always immersive, always changing. MOOD is transformed and transported, accompanying us in every space, in every moment of the day offering flexible and versatile lighting. The same head can be attached to different supports and in different positions to adapt as much as possible to the changes of a nomadic life.
